

Four Colors Suffice & Other Math Wonderments

A Worldwide Celebration of Martin Gardner's 98th Birthday

Friday, October 26, 5:30pm–8:30pm

Room 314 Altgeld Hall

In 1974, Edward M. Reingold, a computer scientist at the University of Illinois, Urbana, made an exhaustive computer search of the order-70 square for a perfect tiling with the set of 24 squares.
